## MUZZLING THE PRESS

A sensation has been caused in Paris by the arrest and detention of the Paris representative of the Universal Press. The offence of the journalist in question was that he had secured a copy of the naval agreement between France and Great Britain and cabled it to his office in New York, thereby letting the diplomatic cat out of the bag. The arrest was made in a sensational and somewhat brutal manner and the correspondent was "third degree'd" and held incommunicado for seven or eight hours. The final result of the matter is still somewhat in doubt.

There can be no doubt that this newspaperman did the world a great service in securing and giving publicity to the document in question. The effect of it has been to effectively kill the attempt that was being made to strengthen the military power and might of France, already far too great for the peace of Europe. The irony of the situation was that the two countries concerned were asking other leading nations to approve the compact without placing the whole agreement fully before them. Newspaper enterprise, however, slowed matters up and has probably saved the world from the beginning of another period of war preparation.

Governments do not try to muzzle the press if their deeds and documents will stand the light of day. For the British Government to join in any pact with France or with any other country, that will involve the hostility of the United States is not a good thing for the peace of the world. The blundering stupidity of the British War Office, which was ever manned by fools in peace time, is one of the survivals of an effete past that should find no place in these post war times. The militaristic spirit of France, too, is another survival that no thinking person can look upon with other than abhorrence. The very fact that the French Government would resort to such extreme measures is a sure indication that they have been doing something that the public opinion of the world would condemn.

It was secret diplomacy that made the last war; it is time we did everything in the open. The newspaperman who secures and gives publicity to such secret agreements is rendering the highest possible service to mankind. We have had enough of war to last us for all time. And we have had too much secretiveness amongst our rulers and leaders. Let the people decide about war. Publish all agreements between nations and let such agreements be for peace, not for war-making. Then we shall have peace and not before. The world of decent, peace-loving people will applaud the courage and enterprise of this newspaperman who did one of the greatest services to the world that any newspaper man has ever done. France will receive and deserve the condemnation of mankind if she ostracizes this man for doing his plain duty.

## THE WAY OF THE TRANSGRESSOR

The conviction of Walter Scott on a charge of manslaughter should be a stern warning to hospital attendants all over the country. The charge for which Scott has been sentenced to five years' imprisonment arose out of the death of Arthur Hobbs, a patient in the Ponoka Mental Hospital, at which the prisoner was an attendant. Hobbs' death was due to acute pneumonia which has been shown to have resulted from ill-treatment at Scott's hands.

Scott's conviction and the evidence which led up to it will also serve to allay nervousness on the part of those who have unfortunate friends mentally afflicted. It is reassuring that the evidence as reported indicates that Scott's fellow attendants were horrified at his treatment of a patient, from which it may be reasonably concluded that such things were not in the nature of every day occurrences. The conviction of Scott should also assure that patients, not only at Ponoka, but at every similar institution in Canada, will be well cared for and humanely treated in the future even if there has been any question of it in the past.

It cannot be conceived that, when Hobbs' tragic death and the circumstances which were believed and are now known to have caused it, first became known, there should not have been many friends and families of other patients who experienced no nervous sensation. In other provinces too, where the care of the mentally defective is a public charge, there must have been a few discreet inquiries on the part of the officials as to the order of their own houses, and, perhaps, a little extra circumspection on the part of the staffs.

Five years is a long sentence, but not too long for an attendant, charged with one of the most sacred of all public trusts, who so forgets himself

as to vent an uncontrollable passion upon a hapless fellow creature. In making an example of this man Scott the courts have discharged a public duty well. If such a shocking affair had taken place in a hospital for the physically unsound it would have been bad enough, though it is inconceivable if only on the ground that the physically infirm at least are blessed with coherent and creditable speech with which to make their complaint known. But here, in the treatment of the mentally sick, is a trust which the government has undertaken to share with no one. There is no other hospital to which the unfortunate patients can be sent and for that reason, if for no other, the public will be glad of this reassurance that in the past, but for this one tragic exception and certainly in the future their afflicted friends are well treated.

## Greatest Month in all Chrysler History

—Spectacular New Record for Chrysler Sales

**P**UBLIC demand for Chrysler products, after creating new sales records month after month, reached a most significant and spectacular climax in September.

Usually a month when automotive production declines, September for the Chrysler Corporation of Canada, Limited, was not only the month of largest production throughout 1928, but the largest also throughout the entire history of Chrysler.

The demand for new Chrysler and Plymouth models, in fact, exceeded everything in Chrysler experience and requires even more than the vastly increased facilities of the Windsor plant to cope with the flood-tide of orders.

Chrysler is gratified by such an overwhelming expression of public confidence—and appreciative of the opportunity it offers to extend production facilities still further in order to satisfy the demand which is ever widening.

In the months and years to come, Chrysler is firmly resolved to continue true to the Chrysler ideals of leadership—in pioneering the new and important improvements in motor car design; in developing new ways of progress in scientific engineering and precision manufacture; in discovering new methods of raising quality and thereby constantly increasing the purchasing power of the automobile dollar.

### "THE LEGION OF THE CONDEMNED"

Tiny specks against a cloud-banked sky, looming larger and larger and taking shape as airplane squadrons in battle formation—The Legion of the Condemned!—Men who laughed at Death and even welcomed it!—Men who had so ruined their lives that Death was their only recourse—the far of drone of staccato exhausts merging into the clattering roar of fifty motors—the shrill insistent whistle of the wind through struts and wires as the onrushing planes swoop down from their altitude of two thousand feet until it seems as though their whirling propellers must thresh the ground, and tear into atoms the crawling specks of humanity that dot the battle scarred areas below them. A daring mystery-melodrama of a squadron of flyers who court death to land spies behind the enemy lines. Sister picture to wings, and no better picture has ever been produced than this gigantic super-special of the air. Prices 55c., 35c., and 25c.

### BIBLE SOCIETY

The annual canvass for the Bible Society will take place on Friday and Saturday, Nov. 2nd and 3rd. The object of the Bible Society during the past one hundred years is to supply every family in the world with a copy of the Bible in their own tongue. They are publishing and disseminating it now in 603 different languages and dialects (one hundred and ten are being used in Canada alone), without note or comment. New translations are being made at the rate of one per month. There are still nearly six hundred other translations to be made before the work can be completed. Thousands of blind people now read the Bible in Braille type, in forty-three languages. The society distributes annually millions of copies. More than 1000 colporteurs are employed. Furnishes without cost the scriptures to missionaries of all denominations for their work. Gives a copy to

## Bad Legs

Read This! If you have Varicose Veins

If you or any relative or friend are worried or suffer because of varicose veins, or bunches, the best advice that anyone in this world can give is to get a prescription that literally hundreds of people all over the country are using with complete satisfaction.

Simply ask your druggist for an original two-ounce bottle of Emerald Oil, and apply night and morning to the swollen, enlarged veins, rubbing gently upward and towards the heart as the blood in the veins flows that way. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are normal size. Emerald Oil is a powerful, yet harmless germicide and results are guaranteed by all good druggists.

C.P.R. President Visits Wheat Champion.

Herman Trelle is one of the men of foreign birth who is doing things for Canada. Born in Germany, he is now the owner of a fine farm in the Peace River country near the town of Spirit River. At the Chicago Live Stock Exhibition of 1926 he won the prize for the world's best wheat, and he is working on the development of a new early-ripening wheat which, he says, will revolutionize farming throughout northern Canada. When E. W. Beatty, and his party of Canadian Pacific directors were in the Peace River country recently they visited Mr. Trelle's farm where the important work of threshing was interrupted long enough to have the above photograph taken. Mr. and Mrs. Trelle are in the center, and the right is Mr. Beatty, and on the left is Sir Herbert Holt.

nearby every new-comer to Canada in their own tongue. There are 900 women employed in Mohammedan lands; chiefly among women and children, in Haroms and Lenannas, where men are not permitted to go. The Bible Society should be supported because it is the greatest agency in the world today in translating, publishing, and disseminating the word of God, because no missionary enterprise can be successful without its aid.

The Bible Society receives from legacies and sale, about 47 cents for every dollar, the balance has to be made up from collections, and gifts, this is reason why the members of the executive of Lacombe branch asks you to kindly receive the collectors, and give them your gift on Friday or Saturday Nov. 2nd or 3rd.

### LACOMBE WHITEWASHES RED DEER 39-0 IN FAST RUGBY GAME

On Friday last the Red Deer High School journeyed to Lacombe to play the High School team here in rugby. The football field was the scene of battle, and was in A1 shape, having been mowed and marked off by the Lacombe boys, previous to the game. There was a large and enthusiastic

crowd at the game and many witnessed a rugby game for the first time in their life. Lacombe opened the scoring early, when Rod Reed made a touch down after a sensational run, repeating the same a few minutes after. Never for a moment was the game in doubt, as the Lacombe team worked like a machine, and every man was a star. Rod Reed was the hero of the game, making 20 out of 30 points; Chas. Sansbury made 9 points on his sensational kicks; Ray Trett and Boyd Carruthers, both made 5 points by touchdowns.

Mr. Grover, who manages and coached the team deserves great credit for his work in the High School Rugby Club. He has coached and

made a team worthy of any High School in Alberta.

## THE YEAR OF HOMEGOING.

The reaper thrasher garners a bumper crop, and the man of the west contemplates the golden stream as it poured from wagon to conveyor (Inset)—On the Duchess of Atholl, homeward bound.

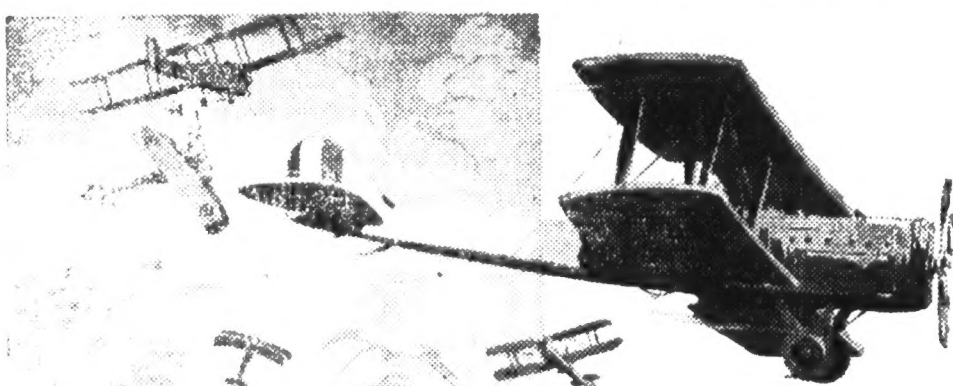

There has been a record crop. The West will continue to flourish. In a thousand cases, a few years of struggle with nature has been rewarded. And what will it mean more roads, more cars, more machinery, more streets and stores and homes and radios. A bumper trade more industrial activity in the east, more shipping and more car loadings per mile. More wheels turning all over the country. But the man whose labours by the favour of Providence has been making responsible for all this his threshing done, he has time now to think of other things than wheat and rain, and frost and sun and harvesters and the rail and steamship companies are anticipating his thought. In a few weeks now, there will be a feverish packing of bags, a collecting of the children, a buying of new hats and shoes and a rush for the trains.

This is the transportation officials will be the year of the home going. The English, the Jersey Islanders, the Scotch and the Irish and the Continentals too. The Canadian Pacific officials foresee so great a task that they have already planned many special trains out of the West, and many steamship sailings which will facilitate the movement and ensure Christmas and New Year's with the old folk and an inexpensive journey in comfort and luxury.

The Minnedosa will give the more fortunate ones a sailing from Montreal on November 28 for Glasgow, Belfast and Liverpool. On the seventh of December the Metagama and Montclair will sail from Saint John, one for Cherbourg, Southampton and Antwerp and the other for the Liverpool run. The Melita, sailing on the fourteenth, will stop en route at St. Helier with a large number of home-going Channel Islanders and the Duchess of Atholl sailing on the fifteenth will take the last of those going home for Christmas via Glasgow or Liverpool. The sailing of the Montreal on the twenty-first is for those to whom New Year's means more.

Just to illustrate to what great extent a good western crop effects industry; one printing establishment was kept busier than usual for some time printing an extra order of Canadian Pacific travellers cheques and money orders. These will, an official said, be sent or carried by homegoers to practically every quarter of the civilized world. Whatever the world crop conditions may be, the Canadian crop will be appreciated almost wherever men eat bread.

That the Golf Club Dance is one of the events of each season goes without saying, but this year a date which lends itself to very special decorations and dances has been chosen. The decorating committee consists of some of the Club's most artistic members and the effects should be original and pleasing. Come and see them, Oct. 30th at 9 o'clock.

Mr. and Mrs. W. L. Elliott and Miss Pye returned to Victoria today after a holiday visit at Gull Lake.

For the time being Presbyterian Services will be held in D. Cameron's Store, next to Post Office, Sunday at 7.30.

The season's prizes will be presented during the supper interval, and the eerie cries of ghosts, the cackle of witches and the howl of black cats will combine in glorious discord for the extra supper dances at the Hallowe'en dance on October 30th.

The neat little sum of \$25.00 was realised at the tea given under the auspices of Lord Lascelles Chapter I.O.D.E. on Saturday afternoon for the benefit of the Wood's Christian Home. All details were successfully managed by Mrs. N. E. Carruthers, Convenor of the Child Welfare Committee and preparations had been made to entertain a greater number of guests than appeared. In view of the fact that a larger amount had been raised in the two preceding years the ladies felt just a little disappointed that their efforts were not better rewarded this year.

Some of the best cooks in town belong to the Golf Club and the decorations for the tables are being looked after by one who knows how—Gou will enjoy the supper at the Golf Club Dance.

Start doing your Xmas shopping now while the selection is good. You will be surprised how much easier it

### SCOTT FOUND GUILTY OF MANSLAUGHTER

Scott, the attendant at the Ponoka Mental Hospital, who went on trial before Judge Ford at Red Deer on Monday last, charged with causing the death of a patient, Dr. Hobbs, was found guilty and sentenced to 5 years imprisonment. Scott's lawyer, MacDonald, of Edmonton, censured the Western Globe severely for the first reports of the case, published at the time of the assault on Hobbs, and all we can say is that his client was lucky that we did not give publicity to all the sordid details of the case. Russell Lord was completely exonerated from any blame in the matter.

A Column of Fun and Facts for Lacombe Folk and our Farmer Friends

The average boy sees Halloween approach with gleeful anticipation, while the average adult and property owner looks forward to it with fear and trembling. However it is certainly a hard-hearted individual who will begrudge the boys a little harmless fun, so long as it is harmless fun—so long as it is harmless.

McCormick Deering Tractors are regularly equipped with all essential features—built in Power Take-off, platform fenders, governor, pulley, brake, adjustable drawbar, removable lugs, etc. There are no extras necessary.

#### Go Getters

Lacombe is fortunate in having men who put things over, instead of thinking things over.

McCormick Deering Tractors mean all-year power. "A fellow just told me I look like you." "Where is he? I'll knock his block off." "I killed him."

Every farmer's wife envies the wife of the salaried man with his "regular income," but the farmers' wife can have a regular income too, with a few cows and a McCormick-Deering Cream Separator.

A customer of ours says: "It isn't the shortness of the skirt that counts, it's the upcreek."

Good Equipment Makes a Good Farmer Better.

We like to think of this business of ours as an essential part of this community, and are doing our best to make it so.

Some "easy payments" are in the same class with "painless extractions."

If you want anything in the farm implement and power machinery lines we can fix you up. Tell us your requirements.

The boy stood on the burning deck, The deck was made of lumber; Said he I can't jump in the sea, The sharks have got my number.
